COMPETITION FOR GRANT

The purpose of the Foundation is to modernize the teaching of practical anatomy, histology and developmental biology in the graduate and postgraduate training.

1863-1922

The Chairman of the Board of Apáthy István Foundation announces a competition for grant for students of Semmelweis University (I.-VI. years) and staff members of dissecting rooms of morphologic Departments of the University. The aim is to produce quality specimens suitable for use of demonstration in graduate teaching.

It is strongly advised to make digital photo archives of the preparations. A written description presenting the specimen should also be attached. Applicants will be asked to shortly (max. 5 min) introduce their work, original aims and achievements, in front of an ad hoc committee. Winners should upload their thesis and the digital photos on the homepage of the Department of Human Morphology and Developmental Biology. The specimens will also be demonstrated in the regular practical courses of the Department.

Address:
Apáthy István Alapítvány
Kuratóriumi Iroda
1094 Budapest
Tűzoltó u. 58.

Deadline: 23 February, 2009
